

GIVE ENERGY MAKE SMILES

The Mover's Reset

You reset through motion.

YOUR STYLE

Your body is your pressure valve. Movers shake off stress physically and think most clearly when they are in motion. When your mind will not stop spinning, moving your body is the fastest way back to calm.

YOUR 3 STEP RESET

The Shake Off

1

Shake it out

Stand up and shake your hands, arms, and shoulders for 30 seconds. It looks silly and it works.

2

Walk it off

Take a ten minute walk outside with no phone. Match your stride to your breath.

3

Reach and release

Stretch your arms overhead, then fold forward and let your head hang heavy for three slow breaths.

MAKE IT YOURS

Build movement into hard days on purpose: a walk between meetings, stairs instead of the elevator, dancing while dinner cooks.
