

GIVE ENERGY MAKE SMILES

The Talker's Reset

You reset through connection.

YOUR STYLE

You process out loud. Talking things through with someone you trust untangles what your mind loops on alone. Your clarity shows up in conversation, so give it somewhere to go.

YOUR 3 STEP RESET

The Voice Reset

1

Voice note it

Record a two minute voice note to yourself saying exactly what is on your mind. No filter, no audience.

2

Text one person

Send one honest text: "Today has been a lot." Connection starts with one true sentence.

3

Say the need

Finish this sentence out loud: "What I need right now is..." Then honor whatever comes up.

MAKE IT YOURS

Keep a short list of people who get it. On hard days, borrow their calm until yours comes back.
